

Cross-Industry Committee on Japanese Yen Interest Rate Benchmarks
Minutes for the December 25, 2020 Meeting
(by written resolution)

The Sub-Group on Loans reported that it had continued to discuss mainly the "Lookback without Observation Shift" approach¹ for TONA (Fixing in Arrears) conventions for use in loans and that it had consulted with its members.

On this basis, the sub-group requested the Committee to publish the results of the consultation in the sub-group, with a view to contributing to market participants developing systems and operations for TONA (Fixing in Arrears) in loans, and the members of the Committee accepted this request.²

¹ The methodology is one in which the Reference Period of the interest rate starts and ends several business days prior to the Calculation Period, and the number of days used to calculate the interest rate is the same as that in the Calculation Period.
